

# PROVEN RVG TECHNOLOGY. ESTABLISHED RELIABILITY.

## Technology that lays the foundation for diagnostic excellence

Every diagnosis starts with a radiograph, so your sensor has some high expectations to live up to. It needs to produce truth-telling images that enable you to diagnose with confidence. It should simplify acquisition and not complicate your workflow. Your sensor has to be comfortable so your patients can tolerate the imaging experience in the first place.

The RVG 6200 stands up to these challenges and more, providing enviable diagnostic power and workflow efficiencies.

# RVG 6200: THE IDEAL WORKFLOW

Imagine if you never had to wait to acquire an image. How much time would you save if your system was always ready to use? With the RVG 6200, arming the sensor or opening the user interface before each use is no longer necessary—the system is ready whenever you are. Simply position, expose, and view for seamless image acquisition.

## Logicon Caries Detector Software

The only FDA-approved commercially available caries diagnosis software helps doctors treat and diagnose interproximal caries at an early stage.\*

**SIMPLE, COMFORTABLE POSITIONING**  
*Ensure proper placement and patient comfort thanks to included positioners and a thinner cable.*

**HIGH-QUALITY IMAGE CUSTOMIZATION**  
*Optimize your images according to your diagnostic needs thanks to pre-programmed anatomic enhancement filters.*

**INTUITIVE INSTALLATION AND MAINTENANCE**  
*Use your RVG 6200 immediately with a streamlined installation process.*

**IMAGING FLEXIBILITY**  
*Produce a diagnostic quality image easily with a broad exposure range.*

**MAXIMUM RELIABILITY**  
*Enjoy peace of mind knowing your sensor is designed and thoroughly tested for durability.*

**EFFORTLESS MAINTENANCE**  
*Maintain your system easily with trouble-shooting service tools.*

**RVG 6200**
